

# Better Animal Research through Open Science

## Be open in several phases of your research

**Why Open Science?**  
For research quality, research integrity, patients, animals, and society

Engage in conversation with journalists and the public

**CONNECT**

**EXCHANGE**

**SHARE**

Share your data and open up your code

Share surplus animals and tissues on ATEX.uu.nl

**PREREGISTER**

Preregister on [preclinicaltrials.eu](http://preclinicaltrials.eu)

**ARRIVE**

Report according to ARRIVE guidelines

**INFORM**

Write a clear Non-Technical Summary

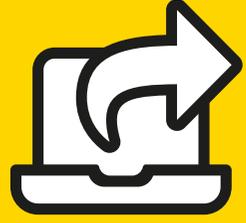

**DESIGN**

Write your work protocols based on perfect Experimental Design

**PLAN**

Make a Data Management Plan and set up version-control software

**PUBLISH**

Publish, whatever the outcome
